

Secondary to Tertiary Transition App (QLIK)

Data captures a persons first enrolment into tertiary training post leaving secondary school. It includes workplace training, apprenticeships and provider-based training (University, Polytechnic, PTE etc).

School leaver transition data for Wairarapa

The data below reflects school leavers of 9 schools across Wairarapa between 2017 – 2019

Note: data includes Teen Parent Unit school leavers

Destinations Overall

The top destinations overall for school leavers from the region are as follows:

- Over the time period there were 1745 school leavers
- 1295 of the school leavers have enrolled in at least one form of tertiary training post school
- This represents an 74% transition rate (national rate is 73%)

Number of enrolments by TEO

For Māori school leavers the picture is slightly different, including the destination 'mix':

- Over the time period there were 495 Māori school leavers
- 335 of the school leavers have enrolled in at least one form of tertiary training post school
- This represents an 67% transition rate (national rate is 66%)

Number of enrolments by TEO

Degree Level Destinations

- 450 of the school leavers have enrolled in a degree level qualification (level 7+)
- This represents a 26% transition rate (national rate is 31%)
- Māori school leavers transition rate into degree level qualifications is only 11% (national rate is 14%)
- Victoria University has the highest intake of school leavers at degree level followed by Massey University

Number of enrolments by TEO

Highest Tertiary Achievement

The data below captures school leavers from 2013 – 2015. This allows 4 years for qualification completion

- 500 of the 1640 (31%) of the school leavers enrolled in a degree level qualification (level 7+)
- 395 achieved at least a level 7 qualification (24% of all school leavers and 79% of those enrolled)
- 50 of 380 (14%) of Māori school leavers enrolled in a degree level qualification
- 35 achieved at least a level 7 qualification (9% of all Māori school leavers and 70% of those enrolled)
- 70% of all school leavers who enrolled and 61% of all school leavers achieved a tertiary qualification (53% of all Māori school leavers and 62% of those that enrol)
- 90 school leavers enrolled with an Industry Training Organisation at Apprenticeship level (L4) with 45 (50%) successfully completing as at March 2021

Highest tertiary qualification NZQF level achieved

School Achievement and Tertiary Transition Level

- The graphs below show school level achievement of school leavers 2017-2019 as well as tertiary transition levels for all school leavers and Māori school leavers
- Although the number scales are different due to population differences, the pictures still reflect the stark difference between the two groups.

All school leavers:

Number of enrolments by highest school achievement

Number of enrolments by gender and qualification NZQF level

Māori school leavers:

Number of enrolments by highest school achievement

Number of enrolments by gender and qualification NZQF level

Tertiary Transition Subject Areas

- The graphs below show tertiary NZSCED subject fields which also show a difference for Māori school leavers compared to all:

All school leavers:

Māori school leavers:

Tertiary Transition App notes:

- All education providers have access to the App
- The app rounds enrolments to the nearest 5 students for privacy reasons
- The app does not capture school leavers who go straight into employment unless accredited workplace training is included in the employment
- Data can be cut and viewed in multiple ways including by region, TLA, ethnicity, gender, Iwi, Kahui Ako and individual schools, groups of schools, deciles and more
- The App is best presented live to capture the true depth and breadth of information available
